

# SphinxXjr.

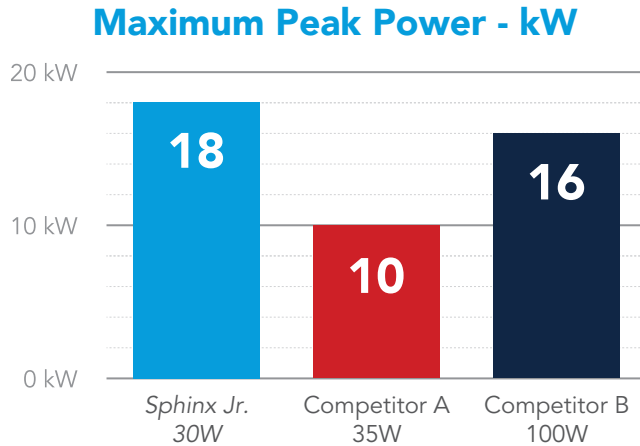

The **most powerful** laser in its category,  
optimized for **Stone Management**

- The **only laser** in the 30W – 35W category with **6 – 18 kW Adjustable Peak Power**
- **StoneEffect™** optimizes Frequency and Peak Power simplifying the Stone Management workflow
- Powered by **Whisper Technology™** makes *Sphinx jr.* one of the **quietest** medical Holmium lasers

*Sphinx jr.* gives you the power you need to Fragment and Dust Stones efficiently. StoneEffect™ optimizes Frequency and Peak Power simplifying the Stone Management procedure workflow.

LISA Laser offers a wide portfolio of **Disposable and Reusable fibers optimized for Stone Management. GlideTip™** single use fiber design **protects your scopes** during the procedure.

SKU	Product Name	Description	Optical Core/micron
<b>Disposable Fibers</b>			
101 503 576	LithoFib-SU	GlideTip™ bare fiber	200 µm
101 503 513	SureFib-SU	GlideTip™ bare fiber	272 µm
101 503 569	SureFib-SU	GlideTip™ bare fiber	272 µm
101 503 387	SureFib-SU	GlideTip™ bare fiber - 5m length	272 µm
101 503 384	PercuFib-SU	bare fiber	365 µm
<b>Reusable Fibers</b>			
101 503 188	LithoFib	bare fiber	200 µm
101 503 364	SureFib	bare fiber	272 µm
101 503 580	SureFib	bare fiber	272 µm
101 503 189	SureFib	bare fiber - 5m length	272 µm
101 503 118	FlexiFib	bare fiber - 5m length	272 µm
101 503 128	PercuFib	bare fiber	365 µm
<b>Capital Equipment</b>			
103 201 221	Sphinx jr.	30W Holmium-YAG Laser
